About me

Computer science student interested in programming and problem solving specified in **iOS development**. I have **professional experience** with **Swift**, **UIKit**, **SwiftUI** and more. I **keep myself up to date with the latest technologies in iOS development**,

Education

Student, Faculty of Computer & Information Science.
Mansoura University.

iOS & Swift - The Complete iOS App Development Bootcamp.

Languages

- Arabic (Native), English (Conversational)

Technical Skills & Technologies

iOS

Swift / UIKit / SwiftUI / Storyboard /
ProgrammaticUI / XIB / AutoLayout / Core Data /
User Defaults / Realm / Core Location / Core
Animation / URLSession / RESTful API / Parsing
JSON / SPM / Firebase / Cloud Firestore / Dark
Mode / Combine / Swift Concurrency / Unit Testing /
Localization

Architectures

MVC / MVP / MVVM

Version Control

Git

Web

HTML
CSS

Additional Languages

C#
Python

Projects

NetflixClone [🔗](#)

"Created a Netflix Clone app employing MVVM architecture with UIKit, CoreData, RESTful API integration, and WebKit WebView for seamless browsing. Demonstrated proficiency in app development, data management, and API connectivity."

ThreadsClone [🔗](#)

"Developed ThreadsClone, an iOS app using SwiftUI and MVVM architecture, integrating Firebase for authentication, Firestore for real-time data, storage, and Kingfisher SPM for optimized image handling."

UberClone [🔗](#)

🚀 Excited to unveil UberClone – my latest SwiftUI masterpiece! 🌐 Seamlessly explore the world with MapKit, enjoy a smooth experience with clean code principles, and relish the elegance of SwiftUI. 🏠

Flash Chat [🔗](#)

"Engineered Flash Chat app in MVC architecture with UIKit, Firebase, and Firestore, enabling real-time messaging. Employed XIB for custom cell designs, demonstrating proficiency in iOS development, database integration, and user interface design for enhanced user experiences."

Clima [🔗](#)

"Crafted a Clima app following MVC architecture, leveraging UIKit, URLSession, RESTful API integration, and CoreLocation to provide accurate weather data and location-based services seamlessly."

ByteCoin [🔗](#)

"Designed ByteCoin app utilizing MVC architecture, UIKit, URLSession, and RESTful API integration to display cryptocurrency prices across multiple countries. Demonstrated expertise in iOS development, data fetching, and multi-country financial representation for enhanced user engagement."

Swiftful Maps [🔗](#)

"Engineered Swiftful Map app using MVVM architecture and SwiftUI, highlighting common places within a specific country for seamless exploration and enhanced user experience."

Sweater Shop [🔗](#)

"Constructed a sophisticated Sweater Shop app employing the MVVM architecture pattern and SwiftUI, showcasing a modern approach to design and seamless user interaction."
